## General Terms & Conditions

1. The successful bidder shall execute the works with great promptness, care and accuracy in a workman like manner to the satisfaction of Engineer-in-charge and shall complete the same.
2. "That the Executive Engineer(Civil), IIT Hyderabad shall from time to time supply the successful bidder with materials as per the schedule hereto and the value of the materials so supplied shall be set off or deducted from any sums then due or thereafter to become due to the successful bidder, otherwise provided that Executive Engineer will not be bound to take back from the successful bidder either before or after the completion of the works, the surplus materials which were originally procured by the successful bidder or were issued to him by the IIT Hyderabad hereinafter called "the Institute" but Executive Engineer shall have the option of purchasing and of the aforesaid materials surplus to the requirements of the works at the local prevailing market rates. Provided further that in the case of materials supplied by the Department the price shall not in any case exceed that originally charged by the Department. The successful bidder shall not remove from the site of the works any of the materials supplied to him for use on the works without previous sanction obtained in writing from the Executive Engineer.
3. That if the Institute shall make to the contractor any payment on account during the execution of the works the same will be liable to be deducted from such sum or sums as may be payable to the contractor on completion of the works as aforesaid.
  - a. **The contractor shall quote the rates inclusive of all Taxes including GST(WCT).**
  - b. The Engineer-in-Charge of the work will accept or reject the work executed, according to his judgment.
  - c. This order can be cancelled and the work stopped at any time by the Engineer-in-Charge if the work, or by any Officer superior to him in authority.
  - d. The work shall be executed strictly according to the specification, as per the drawing attached and as per the direction of Engineer-in-charge.
  - e. The Contractor/Firm shall make arrangement of for passes/token from Security Officer of IITH.
  - f. All work executed shall be paid for according to measurements taken by or under the orders of the Engineer-in-Charge of the work and not according to the quantity given in any estimate.
  - g. Additional conditions & Specifications as indicated in the attached sheet shall apply.
4. That payment due to the contractor may, if so, desired by him, be made to his bank instead of direct to him, provided that the contractor furnishes to the Executive Engineer an authorization in the form of a legally valid document such as a power of attorney conferring authority on the bank to receive payment or his signature in token of receipt on the bill or (2) the account made out as being due to him by Government or his signature in token of receipt on the bill or other claim preferred against the Department before settled by the Executive Engineer of the account or claim by payment to the bank. While the receipt given by such bank shall constitute a full and sufficient discharge for the payment the contractor should, wherever possible, present his bills duly received and discharged through his bankers.

Nothing herein contained shall operate to create in favour of the bank any rights or equities to the Institute.
5. That no labourer below the age of eighteen years shall be employed on the Works.
6. Fair Wage Clause—(a) The contractor shall pay not less than fair wages to laboureres engaged by him on the work.

Explanation:—

- (a) "Fair wage" means wage whether for time or piece work notified at the time of inviting tenders for the work by the Government of India.
- (b) The contractor shall, notwithstanding the provisions of any contract to the contrary, cause to be paid a fair wage to labourers indirectly engaged on the work, including in which any labour engaged by his sub-contractors in connection with the said work, as if the labourers had been immediately employed by him.
- (c) In respect of all labour directly or indirectly employed in the works for the performance of the contractor's part of this agreement the contractor shall comply with or cause to be complied with the contractors' Labour Regulations made by Government from time to time in regard to payment of wages, wage period, deductions from wages, recovery of wages not paid and deductions unauthorisedly made, maintenance of wage register, wage cards publication of scale of wages and other terms of employment, inspection and submission of periodical returns and all other matters of a like nature.
- (d) The Executive Engineer shall have the right to deduct from the moneys due to the contractor any sum required or estimated to be required for making good the loss suffered by a worker or workers by

reason of non-fulfilment of the conditions of the contract for the benefit of the work of wages or of deductions made from his or their wages, which are not justified by contract or non-observance of the Regulations.

- (e) Vis-a-vis the Central Government, the contractor shall be primarily liable for all payments under and for the observance of the Regulations aforesaid without prejudice to indemnity from his sub-contractors.
- (f) The regulations aforesaid shall be deemed to be a part of this contract and any breach shall be deemed to be a breach of this contract.

6A. In respect of all labour directly or indirectly employed in the work for the part of this agreement, the contractor shall at his own expense arrange for all safety provisions as per safety code framed from time to time and shall at his own expense provide all facilities in connection therewith. In case the contractor fails to make arrangements and facilities as aforesaid he shall be liable to pay a penalty of Rs.200 for each default and the Engineer-in-Charge shall be at liberty to make arrangement and provide facilities as aforesaid at the cost incurred in that behalf from the contractor.

**SAFETY CODE—**(i) Suitable scaffolds should be provided for workmen for all works to be done from the ground, or from solid construction except such short period work as may be done from ladders. When a ladder is used an extra man shall be engaged for holding the ladder is used for carrying materials as well, suitable footholds and handholds shall be provided on the ladder and the ladder shall be given an inclination not steeper than  $\frac{1}{4}$  to 1 (1/4 horizontal to 1 vertical).

(ii) Scaffolding or staging more than 3.6 m (12') above the ground or floor swing or overhead support exacted with stationary support shall have guard rail properly attached and otherwise secured at least 90 cm. (3 feet) high above the floor or platform of such scaffolding and extending along the entire length of the outside and ends thereof with only such openings as necessary for the delivery of materials. Such scaffolding or staging shall be so fastened as to prevent from swaying from the building or structure.

(iii) Working platforms, gangways, and stairways should be so constructed that they are level and unduly or unequally, and if the height of the platform of the gangway or the stairway is more than 1.2 m (4 feet) above ground level or floor level, they should be closely boarded, should have a handrail, and should be suitably fenced, as described in (ii) above.

(iv) Every opening in the floor of a building or in a working platform shall be provided with a railing to prevent the fall of persons or materials by providing suitable fencing or railing whose height shall be 90 cm.

(v) Safe means of access shall be provided to all working platforms and other works. Ladders shall be securely fixed. No portable single ladder shall be over 9m (30 feet) in length. Between side rails in rung ladder shall in no case be less than 29 cm. (11-1/2") for rungs including 3 m. (10feet) at least and 6mm. (1/4") for each additional foot of length. Unladders shall not exceed 3.1 m. (12 feet). Adequate precautions shall be taken to prevent damage to equipment. No material on any of the sites of work shall be so stacked or placed as to cause inconvenience to any person or the public.

The contractor shall also provide all necessary fencing and lights to protect the public and shall be bound to bear the expenses of defence of every suit, action or other proceeding which may be brought by any person for injury sustained owing to neglect of the above precautions. He shall be liable for any damage and costs which may be awarded in any such suit, action or proceedings to which he may be liable with the consent of contractor be paid to compromise any claim by any person.

(vi) Excavation and Trenching — All trenches, 1.2 m (4 feet) or more in depth, shall be supplied with at least one ladder for each 30 m. (100 feet) in length or fraction thereof. The ladder shall extend from bottom of the trench to at least 90 cm (3 feet) above the surface of the ground. Trenches which are 1.5 m (5 feet) more in depth shall be stopped back to give suitable bracing held by timber bracing so as to avoid the danger of side from collapse. The excavated material shall be placed within 1.5 m (5 feet) of the edge of the trench or half of the depth of the trench. Cutting shall be done from top to bottom. Under no circumstances undermining shall be done.

(vii) Demolition — Before any demolition work is commenced and also during the progress of the work

- (a) All roads and open areas adjacent to the work site shall either be protected or suitably fenced.
- (b) No electric cable apparatus which is liable to be a source of danger shall be used by the operator shall remain electrically charged.
- (c) All practical steps shall be taken to prevent danger to persons employed in the work or explosion or flooding. No floor, roof, or other part of the building shall be left with debris or material as to render it unsafe.

(viii) All necessary personal safety equipment as considered adequate by the Engineer-in-charge should be kept available for the use of the persons employed on the site and maintained in a condition suitable for immediate use, and the contractor should take adequate steps to ensure proper use of equipment by those concerned.

- (a) Workers employed on mixing asphaltic materials, cement and lime mortars shall be provided with protective footwear and protective goggles.
- (b) Those engaged in white-washing and mixing or stacking of cement bags or any materials which is injurious to the eyes shall be provided protective goggles.
- (c) Those engaged in welding works shall be provided with Welders' protective eye-shields.
- (d) Stone breakers shall be provided with protective goggles and protective clothing, and seated at sufficient safe intervals.
- (e) When workers are employed in sewers and manholes, which are in use, the contractor shall ensure that the manhole covers are opened and are ventilated at least for an hour before the workers are allowed to get into the manholes and the manholes so opened shall be cordoned off with suitable railing and provided with warning signals or boards to prevent accident to the public.
- (f) The contractor shall not employ men below the age of 18 and women on the work of painting with products containing lead in any form. Whenever men above the age of 18 are employed on the work of lead painting the following precautions should be taken:—
  - i. No paint containing lead or lead product shall be used except in the form of paste or readymade paint.
  - ii. Suitable face masks should be supplied for use by the workers when paint is applied in the form of spray or surface having lead paint dry rubbed and scrapped.
  - iii. Overall shall be supplied by the contractors to the workmen and adequate facilities shall be provided to enable the working painters to wash during recess and recession of work.

(ix) When the work is done near and place where is risk of drawing all necessary equipment's should be provided and kept ready for use and all necessary steps taken for prompt rescue of any persons in danger and adequate provision should be made for prompt first-aid treatment of all injuries likely to be sustained during the course or the work.

(x) Use of hoisting machines and tackle including their attachments, anchorage and supports shall confirm to the following standard or conditions:—

1. (a) These shall be of good mechanical constructions, sound material and adequate strength and free from patent defect and shall be kept in good repair and in good working order.
  - (b) Every rope used in hoisting or lowering materials or as a means of suspension shall be of durable quality and adequate strength and free from patent defects.
2. Every crane driver hoisting appliance operator shall be properly qualified and no person under an age of 21 years should be in-charge of any hoisting machine including any scaffold window or give signals to the operator.
3. In case of every hoisting machine and of every chain ring hook, shackle, swivel and pulley block used in hoisting or lowering or as means of suspension, the safe working load shall be ascertained by adequate means. Every hoisting machine and all gear referred to above shall be plainly marked with the safe working load shall be ascertained by adequate means. Every hoisting machine and all gear referred to above shall be plainly marked with the safe working load in case of a hoisting machine having a variable safe working load each safe working load of the conditions under which it is applicable shall be clearly indicated. No part of any machine or of any gear referred to above in this paragraph shall be loaded beyond the safe working load except for the purpose of testing.
4. In case of departmental machines, the safe working load shall be notified by the Electrical Engineer-in-Charge. As regards contractors' machines, the contractor shall notify the safe working load of the machine to the Engineer-in-Charge, whenever he brings any machinery to site of work and get it verified by the Electrical Engineer concerned.

(xi) Motors, Gearing transmission, Electric wiring and other dangerous parts of hoisting appliances should be provided with efficient safeguards, hoisting appliances should be provided with such means as will reduce to the minimum the risk of accidental descent of the load, adequate precautions should be taken to reduce to the minimum the risk of any part of a suspended load becoming accidentally displaced. When workers employed on electrical installations which are already energized, insulating mats, wearing apparel, such as gloves, sleeves and boots as may be necessary should be provided. The workers should not wear any rings, watches and carry keys or other materials which are good conductors of electricity.

(xii) All scaffolds, ladders and other safety devices mentioned or described herein shall be maintained in safe condition and no scaffold, ladder or equipment shall be altered or removed while it is in use. Adequate washing facilities shall be provided at or near places of work.

(xiii) These safety provisions should be brought to the notice of all concerned by the Board at a prominent place at the workshop. The persons responsible for compliance shall be named therein by the contractor.

(xiv) To ensure effective enforcement of the rules and regulations relating to safety arrangement made by the contractor shall be open to inspection by the Labour Officer in Charge of the department or their representative.

(xv) Notwithstanding the above clauses from (i) to (xiv) there is nothing in this contract to exempt the contractor from the operations of any other Act or rule in force in the Republic of India.

6B. The contractor shall submit by the 4th and 19th of every month, to the Engineer-in-Charge a statement showing in respect of the second half of the preceding month and the first half of the month respectively:—

(1) the number of labourers employed by him on the work (2) their wages paid to them and (3) the accidents that occurred during the said fortnight and the circumstances under which they happened and the extent of damages and injuries sustained and (4) the amount of fines levied for default or materially incorrect statement. The contractor shall be liable to pay to Government a sum not exceeding the amount of each default or materially incorrect statement. The decision of the Executive Engineer shall be final and binding on the contractor.

6C. In respect of all labour directly or indirectly employed in the works for the project, the contractor shall comply with or cause to be complied with the rules framed by Government from time to time for the protection of the health and safety of workers employed by the IIT Hyderabad and its contractors.

6D. Maternity Benefit Rules for female workers employed by contractor.—Leave and benefits shall be regulated as follows —

- (i) Leave (i) in case of delivery:—Maternity leave not exceeding 8 weeks, 4 weeks including the day of delivery and 4 weeks following that day.
- (ii) In case of miscarriage:—Up to 3 weeks from the date of miscarriage.

2. Pay (i) In case of delivery:—Leave pay during maternity leave will be at the rate of average daily earnings calculated on the total wages earned on the days when full time work was done during a period of three months immediately preceding the date on which she gives notice that she expects to be confined or at the rate of one rupee per day when she is confined.

(ii) In case of miscarriage:—Leave pay at the rate of average daily earnings calculated on the wages earned on the days when full time work was done during a period of three months immediately preceding the date of such miscarriage.

3. Conditions for the grant of maternity leave:— No maternity leave benefit shall be granted to a workman unless she has been employed for a total period not less than 6 months immediately preceding the date on which she proceeds on leave.

6E. In the event of the contractor(s), committing a default or breach of any of the provisions of the Contractor's Labour Regulations and Model Rules for the Protection of Health and Safety of workers as amended from time to time or furnishing a statement or submitting or filing any statement under the provisions of the above Regulations which is materially incorrect, he/they shall without prejudice to any other liability, pay to Government a sum not exceeding Rs.200/- for every default, breach, or furnishing, making, submitting or filing materially incorrect statements and in the event of the contractor(s) defaulting or breaching in respect the penalty may be enhanced to Rs.200/- per day for each day of default subject to a maximum of 5 percent of the estimated cost of the work put to tender. The decision of the Engineer-in-Charge shall be final and binding on the parties.

6F. The contractor(s) shall at his/their own cost provide his/their labour with a suitable camp or huts (hereinafter referred to as the Camp) of the following specifications on a site approved by the engineer-in-Charge:—

1. (a) The minimum height of each hut at the even level shall be 2.1 m. (7) and the floor area shall be at the rate of 2.7 sq.m. (30 sq. ft.) for each member of the worker's family.
- (b) The contractor(s) shall in addition construct suitable cooking places having an area of 1.8m X 1.5 (6 feet X 5 feet) adjacent to the hut for each family.
- (c) The contractor(s) shall also construct temporary latrines and urinals for the use of the workers each on the scale of not less than four per each one hundred or the total strength of the workers and urinals being provided for women.

- (d) The contractor(s) shall construct sufficient number of bathing and washing places, one unit for every 25 persons residing in the camp. These bathing and washing places shall be suitably screened.
2. (a) All the huts shall have walls of sun-dried or burnt bricks laid in mud mortar or other suitable local materials as may be approved by the Engineer-in-Charge. In case of sun-dried bricks, the walls should be plastered with mud gobi on both sides. The floors may be katcha but plaster with mud gobi and shall be at least 15 cm. (6 inch) above the surrounding ground. The roofs shall be laid with thatched or any other materials as may be approved by the Engineer-in-Charge and the contractor shall ensure that throughout the period of their occupation the roofs remain water-tight.
- (b) The Contractor(s) shall provide each hut proper ventilation.
- (c) All doors, windows and ventilators shall be provided with suitable leaves for security purposes.
- (d) There shall be kept an open space of at least 7.2 m (8 yards) between the rows of huts which may be reduced to 6m. (20 feet) according to the availability of sites with approval of the Engineer-in-Charge, back to back construction will be allowed.
3. Water Supply:— The contractor(s) shall provide adequate supply of water for the use of labourers. The provisions shall not be less than 2 gallons of pure and wholesome water per head per day for drinking purposes and 3 gallons of clean water per head per day for bathing and washing purposes. Where piped water supply is available, supply shall be at stand posts and where the supply is from wells or river tanks which may be of metal or masonry, shall be provided. The contractor(s) shall also at his/their own cost make arrangements for laying pipe lines for water supply to his/their labour camp from the existing mains wherever available, and shall pay all fees and charges therefor.
4. The site selected for the camp shall be high ground, removed from jungle.
5. Disposal of Excreta:— The contractor(s) shall make necessary arrangements for the disposal of excreta from the latrines by trenching or incineration which shall be according to the requirements laid down by the Local Health Authorities. If trenching or incineration is not allowed, the contractor(s) shall make arrangements for the removal of the excreta through the municipal committee/authority and inform it about the number of labourers employed so that arrangements may be made of such Committee/authority for the removal of the excreta. All charges on this account shall be borne by the contractor and paid direct by him to the municipality/authority. The contractor shall provide one sweeper for every 8 seats in case of dry system.
6. Drainage—The contractor(s) shall provide efficient arrangements for draining away sullage water so as to keep the camp neat and tidy.
7. The contractor(s) shall make necessary arrangements for keeping the camp area sufficiently lighted to avoid accidents to the workers.
8. Sanitation:— The contractor(s) shall make arrangements for conservancy and sanitation in the labour camps according to the rules of the Local Public Health and Medical Authorities.
7. That if the contractor or his servants/labourers break or deface, any building, road fence, enclosure, or cause damage to any grass or cultivated land, or water pipes, cables, drains, electric or telephone posts or wires, roads, road curbs, trees, he shall restore or make good the same at his own expense, and in the event of his refusing or failing to do so, the damage, so caused, shall be repaired at his expense by the Executive Engineer, who shall deduct the cost thereof from any sums due, or which may become due to the contractor.
8. That if that Executive Engineer shall at any time during the progress of the works be dissatisfied with the rate of progress or the quality of the materials that have been used or of the workmanship, the Executive Engineer may put an end to this agreement on twenty-four hours' notice and in the case of bad workmanship or defective material may remove the same and have it replaced deducting the cost of such removal or replacement from amount due or that may become due to the contractor.
9. That if the contractor fails to complete as aforesaid the works by the time fixed in the agreement for completion the Director, IIT Hyderabad will be entitled to deduct as compensation from the sum found to be payable under this agreement or the balance of the sum then unpaid to the contractor a sum of Rs.100/- more for every day that shall lapse between the day fixed for completion and the actual completion provided that the compensation so payable shall not exceed ten percent if the cost of the works calculated on the basis of Schedule of the agreement.
- 9A. That in every case in which by virtue of the provisions of Section 12, Sub-Section (1) of the Workmen's Compensation Act, 1923. Government is obliged to pay compensation to a workman employed by the contractor, in execution of the works, Government will recover from the contractor the amount of the compensation so paid and without prejudice to the rights of Government under Section 12, Sub-

section (2) of the said Act, Government shall be at liberty to recover such amount by deducting it from the security deposit or from any sum due by Government whether under this contract or otherwise.

Government shall not be bound to contest any claim made against under Section (1) of the said Act, except on the written request of the contractor and Government full security for all cost for which Government might become liable contesting such claim.

10. Except where otherwise provided in the contract all questions and disputes relating to the specifications, designs, drawings and instructions hereinbefore mentioned and workmanship, or materials used on the work or as to any other question, claim right whatsoever in any way arising out of, or relating to the contract designs, drawings, estimate, instructions, orders or these conditions or otherwise concerning the work or failure to execute the same whether arising during the progress of the work or abandonment thereof shall be referred to the sole arbitration by the Dean(Plan), IIT the Dean(Plan), IIT, Hyderabad is unable or unwilling to act, to the role of an arbitrator persons appointed by the Director, willing to act as such arbitrator. It will be no objection that the arbitrator so appointed is as Government servant, that he has no interest in matters to which this tender relates and that in the course of his duties as such/G he had expressed views on all or any of the matters in dispute or difference. The award so appointed shall be final, conclusive and binding on all parties to this contract.
11. (1) Whenever any claim, against the contractor for the payment of a sum or mon under the contract. Government shall be entitled to recover such sum by appropriate whole, the security deposit of the contractor. Forming the whole or part of such security being insufficient or if no security has been taken from the contractor the total sum recoverable, as the case may be, shall be deducted from any sum that any time thereafter may become due from the contractor under this or any other Government should this sum be not sufficient to cover the full amount recoverable to pay to Government on demand the balance remaining due.

(2) Government shall have the right to cause an audit and technical examination of final bill of the contractor including all supporting vouchers, abstracts etc., to be made of the final bill and if as a result of such audit and technical examination any sum has been overpaid in respect of any work done by the contractor under the contract or by him or have been done by him under the contract and found not to have been executed shall be liable to refund the amount of the over payment and it shall be lawful for Government to recover the same from him in the manner prescribed in sub-clause (1) of this clause in a manner legally permissible and if as a result of audit and technical examination if contractor was paid less than what was due to him under the contract in respect of work done by him under it, the amount of such under payment shall be duly paid by Government to contractor:

PROVIDED that Government shall not be entitled to recover any sum from the contractor shall be entitled to payment of any sum paid short where such payment is made upon between the Engineer-in-Charge on the hand and the contractor on the other hand under the contract permitting payment for work after assessment by the Engineer-in-Charge.
